

Have you got CREATIVE KIDS?

Call Liz Anelli
On: 0499 023477

Book illustrator Liz offers children (and teachers) fun and creative art projects. She visits groups from Kindy to Year 6 (& older) talking through slides of her artwork followed by guided interactive craft activities.

With bags of imagination to fuel them, students will travel with Liz through time and space – to great cities, underwater worlds, to outer space or right inside themselves.

Liz's main focus is on visual storytelling - using drawing, collage & printmaking. Your children might find themselves helping her with the pages of her latest picture book or making their own journey maps!

She brings to your school 20 years' experience with BOOK WEEK and BIG DRAWs around the world.
